At the end September, group sales were down 8.4%, hard hit by the 11.7% drop in sales of Non-proprietary Homeopathic medicines and Specialties in France, where homeopathy is under attack.

In Europe, the decrease in sales in Spain, Belgium, and Poland was partially offset by increased sales in Italy and Bulgaria.

In North America, sales were up in the second and third quarters but cumulative turnover is still down due to the drop in first quarter sales.

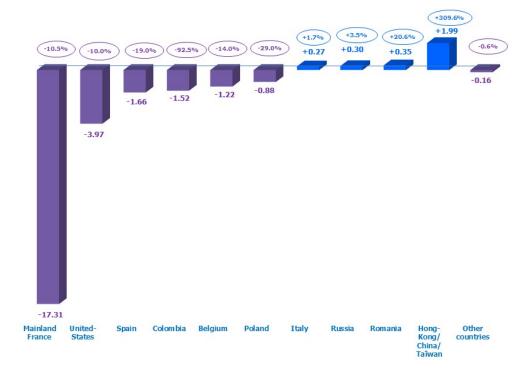

# News of third-quarter of 2019

- An initial report on homeopathy, drafted in 2012 by Australia's main public research institute, the National Health and Medical Research Council, but buried until recently, established that there is "encouraging evidence for the effectiveness of homeopathy" for several pathologies: middle ear infections, upper respiratory infections in adults, and certain side-effects of cancer treatment.
  - This information, which was released in late August 2019, is particularly important because it was covered up in the report published in 2015. In many countries, including France during the evaluation of homeopathic medicines, this abbreviated report has been widely used to discredit homeopathy and homeopathic medicines.
- Following the publication of two decrees on changes to French national insurance coverage of homeopathic medicines on August 31, please note that they will remain eligible for reimbursement until January 1, 2021.
  - Alongside LEHNING Laboratories, we have also filed an appeal with the Council of State to have these decrees canceled.

IFRS 16 standard on leases has been applied as of January 1, 2019: its impact on the 2019 income is not material. 2018 data have not been restated.

#### Change in operating income

# Industrial production costs: -3.0%

- **Evolution in consumptions** in relation to the products mix,
- Decrease in personnel expenses in France: decrease in social security contributions due to the removal of the French "CICE" and provisions for profit sharing,
- Decrease in transport costs (lower volumes shipped and air transport to the United-States) and provisions for returned goods (in relation to the decrease of activity in United-States).

# Preparation and distribution costs: -4.7%

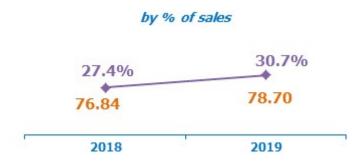

#### In **France**:

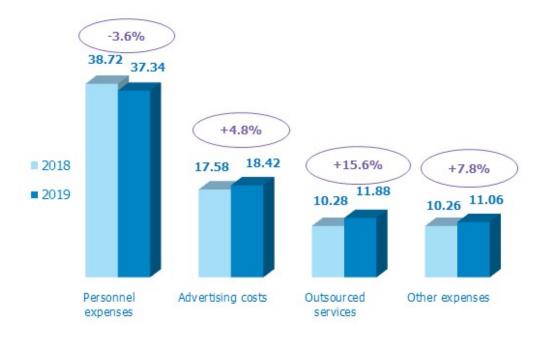

- **Decrease in personnel expenses**: retirement not replaced and decrease in social security contributions and provisions for profit sharing,
- Decrease in taxes based on sales.
- Gradual commissioning of the logistic center in les Olmes: increase in amortizations and in other expenses.

### Promotion costs: +2.4%

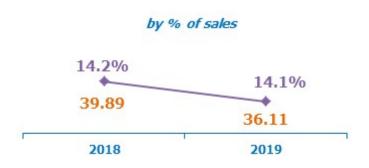

- Decrease in **personnel expenses** in **France**, in **Spain** and in **Italy** (decrease in staff),
- Increase in advertising costs in France and in the United-States,
- MonHoméoMonChoix mobilization campaign.

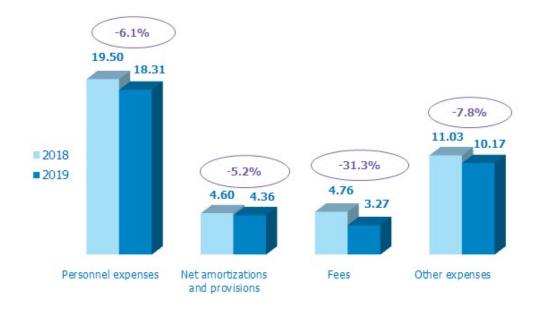

# Support function costs: -9.5%

- Decrease in personnel expenses in France (decrease in social security contributions and evolution of the General Management).
- Savings on legal fees related to basis of comparison in 2018 in France, Belgium and United-States.

#### Revenue recognized in 2018 :

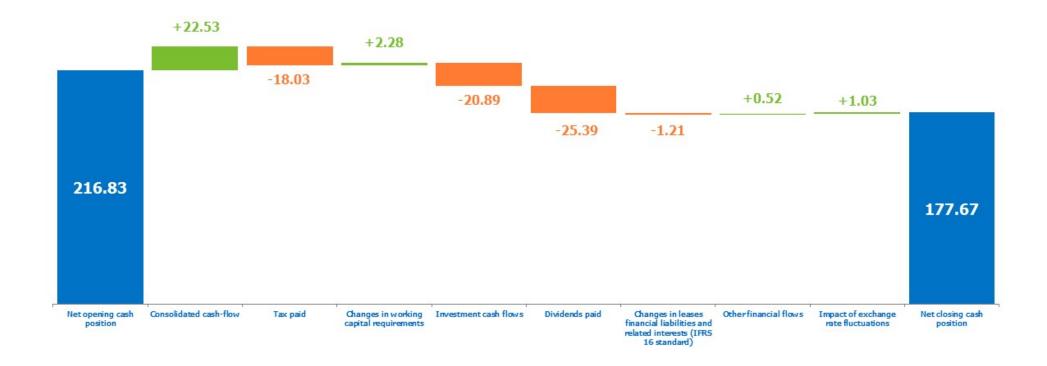

- Capital-gain on the sale of Levallois-Perret site (€6.21 million),
- Tax credit competitiveness and employment (€1.55 million): deleted in 2019 (but offset by a decrease in social security contributions, recognized in all operating activities).
- Expenses recognized in 2019: assets impairments and provisions on UNDA, in Belgium (€4.79 million). In financial difficulty since ceasing sales to its Italian distributor, UNDA has signed, on July 16, 2019 an agreement for the transfer of its business and a preliminary agreement for the sale of its real property. Almost all of the jobs were preserved.
